 Material Handling Solutions

Since 1943

ESTABLISHED IN 1943, Chantland-MHS is a premier manufacturer specializing in the design and fabrication of conveyors; bag, box and drum filling equipment and automatic bag palletizers. We provide personal service, innovative designs, quality machinery and guaranteed solutions to industry worldwide.  
 Our headquarters in Humboldt, Iowa, encompasses over 95,000 square feet of manufacturing and office space. Our facility houses a material testing lab, training rooms for our employees and meeting rooms for our customers and guests. We also maintain regional sales offices in Oklahoma and Colorado to manage our national packaging equipment representative network.  
 In addition to our patented machine designs, we utilize the newest technology and decades of experience to ensure our customers receive the finest equipment available.

BAG FILLERS + CONVEYERS + PALLETIZERS + SYSTEMS

**BULK HANDLING**

**SW-SERIES**  
 CORRUGATED HIGH SIDE WALL BELT CONVEYOR  
 + Designed for continuous handling of materials in configurations from horizontal to steep incline.

**TCC-SERIES**  
 TROUGH IDLER BELT CONVEYOR  
 + Designed for severe duty, high volume transfer of materials in all types of environments.

**TSR-SERIES**  
 TROUGH SLIDER/ROLLER BELT CONVEYOR  
 + Combines economy of trough slider bed frame with efficiency of roller bed.

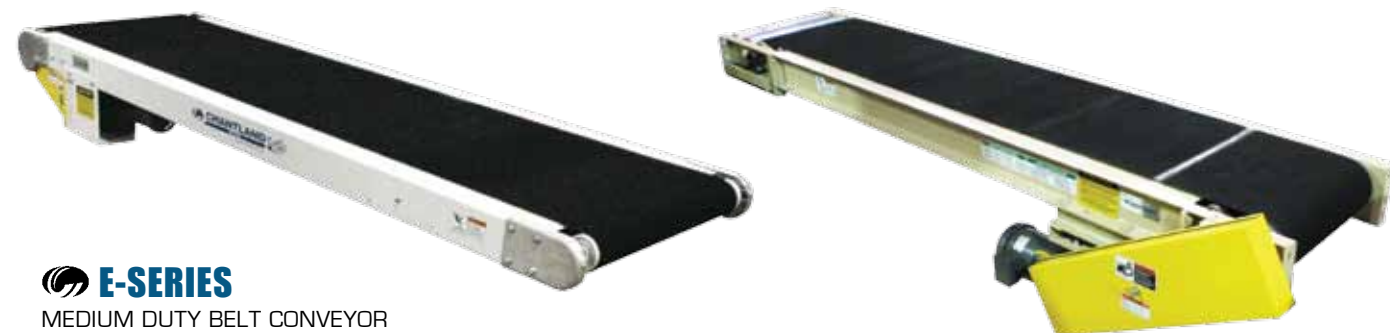

**DUAL ROLL CONVEYORS**  
 + Dual rollers create Vee trough for low friction, high volume and economical transfer of dry bulk materials.

**ROUND BOTTOM CONVEYORS**  
 TROUGH SLIDER BED BELT CONVEYOR  
 + Radius trough design provides maximum capacity.

# PACKAGE HANDLING

**E-SERIES**  
MEDIUM DUTY BELT CONVEYOR  
✦ Economical slider bed design for use in stationary applications up to 30-degree incline.

**HDR/HDS-SERIES**  
HEAVY DUTY BELT CONVEYOR  
✦ Rugged and efficient roller or slider bed designs for handling heavy packages, boxes and bags.

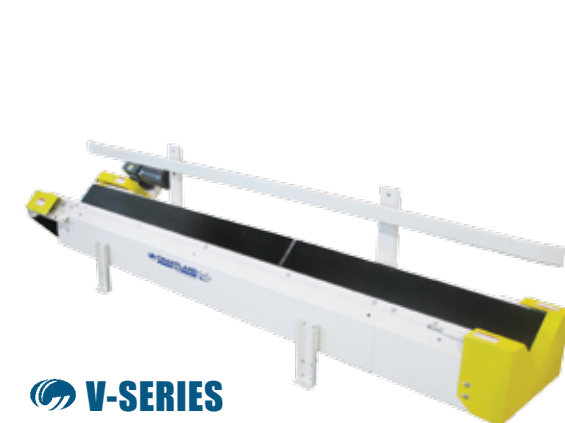

**N-SERIES**  
FLOOR-TO-FLOOR BELT CONVEYOR  
✦ Slider or roller bed designed specifically for transferring packages, boxes and bags between floor levels.

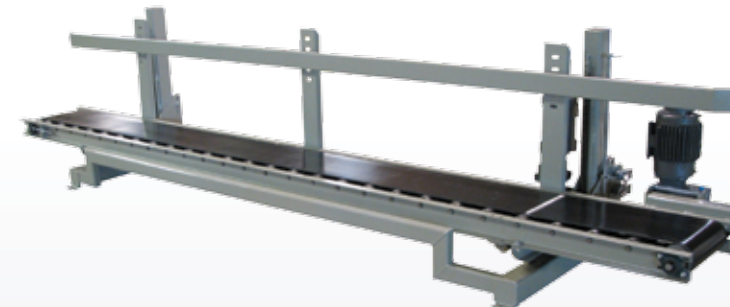

**BA-SERIES**  
KING SIZE PORTABLE BELT CONVEYOR  
✦ Heavy duty portable slider or roller bed designs for use in high capacity industrial, warehouse, and dock-side applications. 16" & 24" belt widths from 20' to 50' lengths.

**EP-SERIES**  
MEDIUM DUTY PORTABLE BELT CONVEYOR  
✦ Portable slider bed design for use in medium duty industrial and warehouse applications. 12" & 16" belt widths from 10' to 26' lengths.

# BAG HANDLING

**V-SERIES**  
CLOSING CONVEYOR  
✦ Designed to convey pinch bottom bags through sewing and sealing equipment.

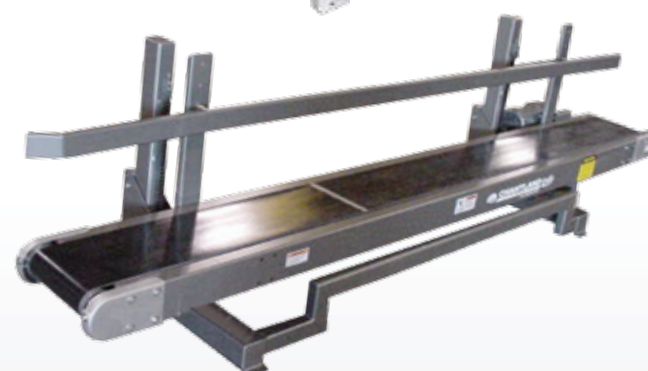

**4214**  
HEAVY DUTY FLAT CLOSING CONVEYOR  
✦ Structural channel frame designed to convey flat bottom bags through sewing and sealing equipment.

**4216**  
BAG TURNER CONVEYOR  
✦ Transfers filled bags in line, from a standing position to a bottom first, laying down position.

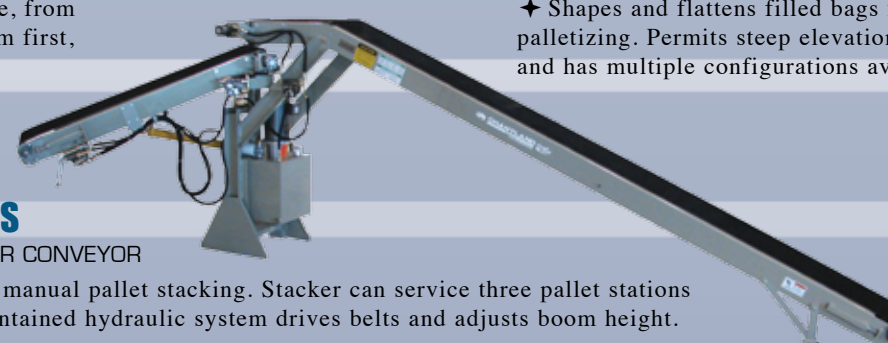

**4217**  
BAG KICKER CONVEYOR  
✦ Transfers filled bags at right angle, from a standing position to a bottom first, laying down position.

**4201**  
MEDIUM DUTY FLAT CLOSING CONVEYOR  
✦ Formed slider bed frame designed to convey flat bottom bags through sewing and sealing equipment.

**4215**  
BAG FLATTENER CONVEYOR  
✦ Shapes and flattens filled bags for better palletizing. Permits steep elevation changes and has multiple configurations available.

**S-SERIES**  
SWIVEL STACKER CONVEYOR  
✦ Designed for manual pallet stacking. Stacker can service three pallet stations while its self contained hydraulic system drives belts and adjusts boom height.

# BELT TRIPPERS

**GUIDELINE**  
GRAVITY BELT TRIPPER  
✦ Designed for left, right or end discharge in stockpiling operations.

**TCC**  
GRAVITY BELT TRIPPER  
✦ Robust construction designed for three-roll trough idler conveyors.

**CROSS BELT TRIPPERS**  
✦ Designed for left or right powered discharge for stockpiling, bunker, or bin filling operations.

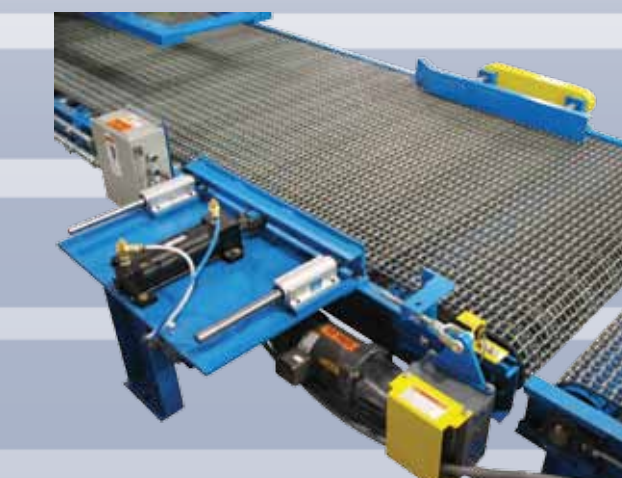

# SPECIALTY CONVEYORS
